| État de la pièce              | 361 pcs Stock                               |
| Tension - Alimentation        | 1.8 V ~ 3.8 V                               |
| Type                          | TxRx + MCU                                  |
| Séries                        | SimpleLink™                                 |
| Interfaces série              | I²C, I²S, JTAG, SPI, UART                   |
| Sensibilité                   | -100dBm                                     |
| RF Family / Standard          | 802.15.4                                    |
| Protocole                     | 6LoWPAN, Zigbee®                            |
| Alimentation - sortie         | 5dBm                                        |
| Emballage                     | Tape & Reel (TR)                            |
| Package / Boîte               | 48-VFQFN                                    |
| Température de fonctionnement | -40°C ~ 85°C                                |
| Modulation                    | DSSS, O-QPSK                                |
| Taille mémoire                | 128kB Flash, 28kB SRAM                      |
| GPIO                          | 31                                          |
| La fréquence                  | 2.4GHz                                      |
| Taux de données (Max)         | 250kbps                                     |
| Courant - Émission            | 6.1mA ~ 9.1mA                               |
| Courant - Réception           | 5.9mA ~ 6.1mA                               |
|                               |                                             |
|                               |                                             |
