| La description                        | IC USB SWITCH DPST 8MICROPAK                      |
| Catégorie                             | Circuits intégrés (CI) > Interface - commutateurs |
| État de la pièce                      | 11775 pcs Stock                                   |
| Alimentation en tension, simple (V +) | 3 V ~ 4.3 V                                       |
| Alimentation en tension, double (V ±) | -                                                 |
| Circuit de commutation                | DPST                                              |
| Package composant fournisseur         | 8-MicroPak™                                       |
| Séries                                | -                                                 |
| Emballage                             | Tape & Reel (TR)                                  |
| Package / Boîte                       | 8-XFQFN                                           |
| Température de fonctionnement         | -40°C ~ 85°C (TA)                                 |
| Résistance à l'état (Max)             | 6.5 Ohm                                           |
| Nombre de canaux                      | 1                                                 |
| Circuit multiplexeur / démultiplexeur | 2:1                                               |
| Caractéristiques                      | Break-Before-Make, USB 2.0                        |
| Applications                          | USB                                               |
| bande de -3 dB                        | 720MHz                                            |
