| Modèle de produit                  | ATA6614Q-PLQW                                        |
| Fabricant                          | Micrel / Microchip Technology                        |
| La description                     | IC MCU 8BIT 32KB FLASH 48QFN                         |
| Catégorie                          | Circuits intégrés (CI) > Embedded - Microcontrollers |
| État de la pièce                   | 32773 pcs Stock                                      |
| Tension - Alimentation (Vcc / Vdd) | 2.7 V ~ 5.5 V                                        |
| Package composant fournisseur      | 48-QFN (7x7)                                         |
| La vitesse                         | 16MHz                                                |
| Séries                             | Automotive, AEC-Q100, AVR® ATA66 LIN-SBC             |
| Taille de la RAM                   | 2K x 8                                               |
| Type de mémoire de programme       | FLASH                                                |
| Mémoire de programme Taille        | 32KB (32K x 8)                                       |
| Périphériques                      | Brown-out Detect/Reset, POR, PWM, WDT                |
| Emballage                          | Original-Reel®                                       |
| Package / Boîte                    | 48-VFQFN Exposed Pad                                 |
| Type d'oscillateur                 | Internal                                             |
| Température de fonctionnement      | -40°C ~ 125°C (TC)                                   |
| Nombre d'E / S                     | 23                                                   |
| Taille EEPROM                      | 1K x 8                                               |
| Convertisseurs de données          | A/D 8x10b                                            |
| Taille de l'âme                    | 8-Bit                                                |
| core Processor                     | AVR                                                  |
| connectivité                       | I²C, LIN, SPI, UART/USART                            |
|                                    |                                                      |
