| Caractéristiques              |                                        |
|-------------------------------|----------------------------------------|
| Modèle de produit             | 24LC64T-I/MS                           |
| Fabricant                     | Micrel / Microchip Technology          |
| La description                | IC EEPROM 64KBIT 400KHZ 8MSOP          |
| Catégorie                     | Circuits intégrés (CI) > Mémoire       |
| État de la pièce              | 2454 pcs Stock                         |
| Tension - Alimentation        | 2.5 V ~ 5.5 V                          |
| Package composant fournisseur | 8-MSOP                                 |
| La vitesse                    | 400kHz                                 |
| Séries                        | -                                      |
| Emballage                     | Tape & Reel (TR)                       |
| Package / Boîte               | 8-TSSOP, 8-MSOP (0.118", 3.00mm Width) |
| Température de fonctionnement | -40°C ~ 85°C (TA)                      |
| Type de mémoire               | Non-Volatile                           |
| Taille mémoire                | 64Kb (8K x 8)                          |
| Format de mémoire             | EEPROM                                 |
| Interface                     | I²C, 2-Wire Serial                     |
|                               |                                        |
