| Caractéristiques                         |                                   |
|------------------------------------------|-----------------------------------|
| Modèle de produit                        | AT45DB642D-TU                     |
| Fabricant                                | Micro Commercial Components (MCC) |
| La description                           | IC FLASH 64MBIT 66MHZ 28TSOP      |
| Catégorie                                | Circuits intégrés (CI) > Mémoire  |
| État de la pièce                         | 2746 pcs Stock                    |
| Tension - Ventilation                    | 28-TSOP                           |
| Normes                                   | Non-Volatile                      |
| Logiciel                                 | 64Mb (1056 Bytes x 8192 pages)    |
| style de la coque                        | 2.7 V ~ 3.6 V                     |
| Séries                                   | -                                 |
| État RoHS                                | Tray                              |
| Temps de recouvrement inverse (trr)      | 66MHz                             |
| Polarisation                             | 28-TSSOP (0.465", 11.80mm Width)  |
| Isolation de sortie                      | FLASH                             |
| Température de fonctionnement            | -40°C ~ 85°C (TC)                 |
| Niveau de sensibilité à l'humidité (MSL) | 3 (168 Hours)                     |
| Référence fabricant                      | AT45DB642D-TU                     |
| Interface                                | RapidS™, Rapid8™                  |
| La description                           | IC FLASH 64MBIT 66MHZ 28TSOP      |
|                                          |                                   |
