| Caractéristiques                   |                                                      |
|------------------------------------|------------------------------------------------------|
| Modèle de produit                  | PIC16F883-I/ML                                       |
| Fabricant                          | Micrel / Microchip Technology                        |
| La description                     | IC MCU 8BIT 7KB FLASH 28QFN                          |
| Catégorie                          | Circuits intégrés (CI) > Embedded - Microcontrollers |
| État de la pièce                   | 5478 pcs Stock                                       |
| Tension - Alimentation (Vcc / Vdd) | 2 V ~ 5.5 V                                          |
| Package composant fournisseur      | 28-QFN (6x6)                                         |
| La vitesse                         | 20MHz                                                |
| Séries                             | PIC® 16F                                             |
| Taille de la RAM                   | 256 x 8                                              |
| Type de mémoire de programme       | FLASH                                                |
| Mémoire de programme Taille        | 7KB (4K x 14)                                        |
| Périphériques                      | Brown-out Detect/Reset, POR, PWM, WDT                |
| Emballage                          | Tube                                                 |
| Package / Boîte                    | 28-VQFN Exposed Pad                                  |
| Type d'oscillateur                 | Internal                                             |
| Température de fonctionnement      | -40°C ~ 85°C (TA)                                    |
| Nombre d'E / S                     | 24                                                   |
| Taille EEPROM                      | 256 x 8                                              |
| Convertisseurs de données          | A/D 11x10b                                           |
| Taille de l'âme                    | 8-Bit                                                |
| core Processor                     | PIC                                                  |
| connectivité                       | I²C, SPI, UART/USART                                 |
